JOSE MENOR Web Developer & Graphic Designer

I've been a graphic designer for more than 10 years, and always loved web development. So I make the decission to go to San Francisco to become a web developer. Then I came to Berlin, where I have been working for Jobspotting.

EDUCATION

MAR 2014
JAN 2014

Trained as a **Web Developer** by Dev Bootcamp

Dev Bootcamp is a 9-week intensive training program for web development, with an emphasis on Ruby on Rails.

- Built web applications in Ruby and JavaScript using MVC, RESTful, and object-oriented design patterns.
- Implemented test-driven development using RSpec, Cabybara, and Jasmine.
- Iterated frequently using Agile development and Git versioning control.
- Learned "soft" skills that are integral for being a great developer, such as empathy and giving feedback.

Technologies used: Ruby, Sinatra, Rails, JavaScript, ActiveRecord, RSpec, Capybara, Git, Heroku, Sass

PROFESSIONAL EXPERIENCE

JAN 2015
NOV 2014

Frontend Developer at Jobspotting

Designed and developed some parts of the app.
Mainly Sass and HTML, data came from a Django Backend.

NOV 2013
OCT 2009

Art Director, Graphic Designer & Founder at Malgusto

I founded Malgusto an online T-shirt brand and shop, I did:
Art direction, art finalising, community management.

Malgusto also worked as a graphic & web design studio so I designed for clients too.
